

## ARMY OF POLICE CALLED TO FIND KIDNAPPED BABY

Entire Block in Uproar While  
Little Loretta Is Playing  
in Neighbor's Home.

When Lieut. Gallagher answered a telephone call in the Manhattan police station today a woman, who said she was Mrs. Rosa Lewis of No. 83 Bank street, the Bronx, excitedly told of the kidnapping of her three-year-old daughter, Loretta, by a mysterious woman in black.

Police Officer Foley was called to the house in a hurry. He was followed by six reserves. It was determined that the perpetrator of such an outrage as kidnapping a baby should be captured, and all the police within reach were sent to the Lewis home. Lieut. Weiner and Detective Flynn, Mayor Schuch and Capobianco broke speed records reaching Bank street.

The police surrounded the block and stopped all women with children and would not allow them to pass until they proved the children were their own. The police then began to call of the various houses in the neighborhood. One of them rang the bell of Mrs. Louis Berger's home, No. 87 Bank street.

"We are looking for a mysterious woman who kidnapped Mrs. Lewis's little girl," said a starry-eyed policeman. "Why, come right in," said Mrs. Berger, and in trooped half a dozen policemen. In the parlor of the Berger home little Loretta, unconscious of the excitement she was causing, was playing with Helen Berger. The mystery was unraveled. Loretta and Helen are chums and she had decided to call on her friend. A little boy had told Mrs. Lewis a mysterious woman in black had kidnapped her baby.

"Well, it might have been a real kidnapping," muttered the army of policemen and detectives consulting to each other as they wended their way stationward.

### GOES WEST FOR TRIAL.

L. E. Stubbs Under Federal Indictment in Omaha.

L. E. Stubbs, who was indicted by the Federal Grand Jury in Omaha on April 2, 1911, for operating through the mails an alleged scheme to defraud investors, was arraigned today before Commissioner Shields. He waived examination and consented to return to Omaha for trial.

Stubbs, who was arrested by Postoffice Inspector Albert E. Furness, was turned over to Marshal Henkel, who will send him to Omaha.

The indictment charges that Stubbs and his associates sold stock on false representation about their business.

## WALL STREET.

Reading monopolized attention in the early stock market today. While other stocks were inclined to sag heading toward 125 on an opening price of 127. The strong rising tendency in heading strengthened the rest of the list for a short period, but a resumption of liquidation toward the end of the first hour soon had the market bending downward.

In the subsequent reaction Union Pacific dropped to 141, Steel to 40 and St. Paul to 105.

After maintaining a fair degree of firmness throughout the afternoon period, stocks began to yield to predominate selling in the last few minutes that succeeded in bringing the list down to about the lowest of the day at closing time. Nearly all standard issues lost about 1/4 point at the end, although heading managed to retain a large part of its early gain.

### The Closing Prices.

To-day's highest, lowest and last prices of stocks and of last changes as compared with yesterday's closing prices are as follows:

Stock	High	Low	Last	Change
Am. Coal & Febrity	112 1/2	112	112 1/2	+1/2
